

UV FINISHED BIRCH BUTCHER BLOCK

CONGRATULATIONS on purchasing a Sparrow Peak Birch Butcher Block, the best valued butcher block product on the market today! With the proper treatment it will look great for years to come.

The Birch in this product is creamy white to yellowish, while the heartwood is reddish brown with a straight, close grain and a fine, even texture. Birch is a heavy, hardwood that takes stain extremely well. Birch wood is a product of nature and will display characteristics that are unique to each piece.

CARE INSTRUCTIONS:

- This wood top comes finished and ready for installation and use.
- This wood top can be cut to size with standard wood working tools. A dark Walnut stain can be used to darken lighter areas of cut edges if desired. Any cut edges should also be sealed with a polyurethane to protect the wood from rapid moisture gain or loss.
- For food preparation, we recommend that a cutting board or mat be used to preserve the life and look of the top. Do not cut directly on the wood surface as the finish could become scratched.
- Clean this wood top with warm water and a mild detergent.

WARRANTY:

- This product comes with a 90 day limited warranty.
- It can be exchanged or refunded if the product has delaminating staves or other damages because of faulty fabrication.
- The product warranty will not cover product damage due to improper storing, handling, alteration, or installation.
- Any damage due to transportation must be reported immediately. If upon receipt the packaging appears to be damaged please unpack immediately and check for potential damage.
